2 September 1953

Memorandum for: Assistant Director/00

1. Reference is made to the recent information [redacted]
[redacted] that Governor Arthur Langlie, of
Washington, was contemplating a trip to Europe.

25X1

2. The Acting Director has determined that we should offer to brief Governor Langlie on the political situation in Europe prior to his trip abroad if the Governor desires such a briefing.

3. It is considered preferable to brief the Governor in Washington, D. C. if it is possible for him to stop off on his way to Europe. In the alternative, we could send a man to brief him in New York if that is his point of departure. Washington, D. C., however, is considered preferable.

4. I would appreciate being kept advised as to the Governor's desires in this matter.

Walter L. Pforzheimer
Legislative Counsel
